INTRODUCING ELLACOR

The ONLY device that REMOVES skin without surgical scars

ellacor[®]

Baseline

Day 90 Post 1 Treatment

Each treatment removes up to 8% total surface area of skin with microscopic skin punches that close within hours leaving a tighter, more lifted appearance of skin on the nasolabial folds, cheeks and jawline.

If you have mild, moderate or severe skin laxity in the lower face and do not want surgical scars, OR if you have already had a facelift and have skin laxity that you want to improve, you are a candidate for Ellacor.

An in office, local only procedure, performed ONLY by plastic surgeons and dermatologists - our practice is very excited to announce this innovative offering.
